**FACES OF LEADERSHIP
2013-2014**

...we all know what slavery is

SLAVERY (n.)

- The act of buying and selling **human beings** as commercial goods, and using them as a form of labor, entertainment, or service.

but did you know that...

WHAT HAVE YOU DONE ABOUT IT?

It still exists in America.
Today.

The stage of slavery around the world is **trafficking**. Trafficking primarily involves exploitation which come in many forms including being victimized into prostitution, subjecting victim to slavery, recruitment, entrapment, compelling victim to commit sex acts for the purpose of creating pornography, and misleading victim into debt bondage. According to some estimates, approximately 30% of trafficking involves sexual exploitation and 10% in forced labor exploitation. It is estimated that there are approximately 27 million slaves around the world. 85% of female trafficking victims meet the clinical criteria for post-traumatic stress disorder. Women who have been trafficked for the purpose of sexual exploitation experience a significantly higher rate of HIV and other STDS, tuberculosis, and permanent damage to their reproductive system. Around half of trafficking victims in the world are under the age of 18. More than 25% of trafficked children suffer additional abuse at the hands of their traffickers. Trafficked children are significantly more likely to develop mental health problems. Those who forced engage in prostitution as adults, and either continue to be victimized by violent crimes later in life. The human trafficking industry makes \$15.5 billion annually in undeveloped countries. There are currently between 14,500 - 17,500 human beings trafficked into the U.S. annually. There is only one shelter in the US designed specifically to meet the needs of trafficking victims. And, there are a total of seven to nine victims. Trafficking victim normally, don't get help because they think that they, or their families, will be hurt by their traffickers or that they will be deported.
